Aloha!

My name is Morgane, I was born in Tahiti and have moved to Hawaii about 6 years ago. I did my junior and senior years of High School here before pursuing college. When I first move to Hawaii I couldn't speak english, but it did not stop me from learning. I've always had a passion for arts but in a younger age, I was more interested in everything that touched music. I gave private music/solfege lessons to kids for about 2 years.

After this amazing experience, I decided to pursue my other passion in design and I am very excited and looking forward to become a part of this industry.
